

EAST GREENWICH
Draft Amendment
Article I – General Provisions
Chapter 152 - Noise

§ 152-1. Statement of public policy.

The Town Council hereby finds and declares that:

- A. Excessive noise is a serious hazard to public health and welfare and the quality of life in the Town of East Greenwich.
- B. A substantial body of science and technology exists by which excessive noise can be substantially abated without serious inconvenience to the public.
- C. Certain of the noise-producing equipment in this community is essential to the quality of life herein and should be allowed to continue at reasonable levels with moderate regulation.
- D. Each person has a right to an environment reasonably free from noise which jeopardizes health or welfare or unnecessarily degrades the quality of life.
- E. It is the declared policy of the Town of East Greenwich to promote an environment free from excessive noise (otherwise properly called noise pollution), which unnecessarily jeopardizes the health and welfare and degrades the quality of the lives of the residents of this Town without unduly prohibiting, limiting or otherwise regulating the function of certain noise-producing equipment which is not amenable to such controls and yet is essential to the quality of life in the community.
