INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Town Council
Town of East Greenwich
East Greenwich, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of East Greenwich, Rhode Island (Town) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the Town of East Greenwich, Rhode Island as of June 30, 2017, and the respective changes in financial position thereof, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphases of Matter

As discussed in Note 16 for the financial statements, during the fiscal year ended June 30, 2017, the Town adopted new accounting guidance, Government Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB)*. The net position of the Town has been restated to recognize the Net OPEB Liability required in implementing GASB No. 75. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4-13 and 75-80 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of East Greenwich, Rhode Island's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining non-major fund financial statements, the combining fiduciary fund financial statements, other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting

and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, the combining fiduciary fund financial statements, other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 3, 2018, on our consideration of the Town of East Greenwich, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of East Greenwich, Rhode Island's internal control over financial reporting and compliance.

Management's Discussion and Analysis

TOWN OF EAST GREENWICH, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2017
(Un-audited)

Management of the Town of East Greenwich provides this Management's Discussion and Analysis of the Town of East Greenwich's Annual Financial Report for the readers of the Town's financial statements. This narrative overview and analysis of the financial statements of the Town of East Greenwich is for the fiscal year ended June 30, 2017. We encourage readers to consider this information in conjunction with the Town's financial statements that follow.

Financial Highlights

- ❖ The Town's net position for its primary government increased by \$205,282 as a result of this year's current operations. The primary reason for the current year increase was due to an increase in the business type activities. On a government-wide basis the liabilities and deferred inflow of resources of the Town of East Greenwich exceeded its assets and deferred outflows at the close of the most recent fiscal year by \$1,558,299. Net position of business activities increased by \$797,351 or 3.24%, while net position of Governmental Activities decreased by \$592,069. Also, during the fiscal year ended June 30, 2017, the Town adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other than Pension*. Therefore, the beginning net position of the Town has been restated to recognize the net OPEB liability required in implementing GASB No. 75. The effect of the implementation caused the unrestricted net position to decrease by net (\$27,981,084).
- ❖ The Town's Government-wide (governmental and business activities) operating expenses were \$74,982,169 a 2% increase from the prior year, while revenues collected were \$75,187,451 a 4.3% increase. The increase in operating expenses was mainly due to increases in education and general government expenses relating to pension costs. The increase in revenue was from increases in education operating grants additional tax collections and business services revenue.
- ❖ As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$16,996,980. Over 37% of this amount, \$6,323,490 is unassigned and available for use within the Town's designation and fiscal policies. See page nine for more detail pertaining to the fund balance categories.
- ❖ At the end of the current fiscal year, the general fund unassigned fund balance was \$6,405,385 or 9.4% of the total general fund expenditures for the fiscal year. The general fund's current fiscal year revenues and transfers were greater than the expenditures and transfers by \$380,296. On a budgetary, basis revenues and transfers exceeded expenditures and transfers by \$905,296.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. These basic financial statements consist of three components:

- Government – wide financial statements
- Fund financial statements
- Notes to financial statements

In addition to the basic financial statements, this report also contains required supplementary information and supplementary information.

TOWN OF EAST GREENWICH, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2017
(Un-audited)

The Town's basic financial statements and supplementary financial information provide information about all of the Town's activities. They provide both a short-term and a long-term view of the Town's financial health as well as information about activities for which the Town acts solely as a trustee for the benefit of those outside of the Town's government.

Government-wide financial statements - are designed to provide readers with a broad overview of the Town's finances in a manner which is similar to a private-sector business. They are presented on the accrual basis of accounting where revenues and expenditures are recognized on the date they occurred rather than on the date they were collected or paid.

The *Statement of Net Position* presents information on all of the Town's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in the Town's net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *Statement of Activities* presents information which shows how the Town's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods. Examples are uncollected taxes and earned but unused compensated absences.

Both of the government-wide financial statements distinguish functions of the Town, which are supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Town's governmental activities include general government and administration, public safety, development services, cultural and recreational services. The Town's business activities consist of the East Greenwich Sewer Department.

The government wide financial statements are reported on pages 14 through 15.

Fund financial statements – A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories-governmental funds and proprietary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

TOWN OF EAST GREENWICH, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2017
(Un-audited)

The Town maintains governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, and the School Bond 52m Capital Fund, which are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements in the supplementary information section of this report.

The basic governmental fund financial statements can be found on pages 16 through 17.

Proprietary Funds - The Town's proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town has one enterprise fund, the East Greenwich Sewer Department, which accounts for the Town's sewer system.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the East Greenwich Sewer Department since it is considered to be a major fund of the Town.

The basic proprietary fund financial statements are presented on pages 19 through 21.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statements can be found on page 22.

Notes to Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements are presented on pages 24 through 74.

Other Information - In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information pertinent to the Town's operations.

Required Supplementary information is presented on pages 75 through 89.

The combining statements and supplementary information referred to earlier in connection with non-major governmental funds are presented on pages 90 through 113.

Government-wide Financial Analysis

Analysis of the Town of East Greenwich's Net Position

As noted earlier, over time the Town's net position may serve as a useful indicator of a government's financial position, and an important determinant of its ability to finance services in the future. For the Town of East Greenwich, governmental activities liabilities and deferred inflow of resources exceeded assets and deferred outflow of resources by \$26,962,877 as of June 30, 2017. This reflects a decrease of \$592,069 from this current year's activity. See the note in the first paragraph which describes the effect of the Town's early implementation of GASB 75. The Business Type Activities assets exceeded liabilities by \$25,404,578 as of June 30, 2017. This reflects an increase of \$797,351 from this current year's activity. See page 4 Financial Highlights above for a further explanation.

Listed below is a comparison of the current and prior fiscal years.

TOWN OF EAST GREENWICH, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2017
(Un-audited)

A large portion of the Town's net position, \$52,345,208 consists of its investments in capital assets such as land, buildings and improvements, motor vehicles, furniture and equipment and infrastructure, less any debt used to acquire these assets, which is still outstanding. The Town uses these capital assets to provide services to its citizens. Consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves are unlikely to be used to liquidate these liabilities.

Analysis of the Town of East Greenwich's Operations

The following analysis provides a summary of the Town's operations for the year ended June 30, 2017. The Town first implemented GASB Statement 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments for the fiscal year June 30, 2003. Therefore, comparative data is now available and is presented in the following schedules. Governmental activities decreased the Town's net position by \$592,069 for the current period, while business-type activities increased the Town's net position by \$797,351.

The net change in fund balance for the fiscal year ended June 30, 2017 was a decrease of (\$8,310) for the Town's governmental fund types. In the statement of activities, expenses for capital items are not recorded as expenses but shown on the balance sheet, which resulted in a decrease of \$2,342,054 net of depreciation to the net position; also revenues from the increase in unearned revenues are not recorded as revenues in the fund financial statements, but in the statement of activities this resulted in an increase of \$75,685. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position, which increased the Town's net position by \$4,295,833. See Notes 8 and 9 in the notes to the financial statements and page 18 of the financial statements for a more detailed explanation of changes in net position.

The following page presents the Changes in Net Position for the current year's activity.

Financial Analysis of the Town of East Greenwich's Funds

Governmental Funds - The focus of the Town of East Greenwich's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year.

TOWN OF EAST GREENWICH, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2017
(Un-audited)

At the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$16,996,980. Approximately 37% of the total amount, or \$6,323,490 constituted unassigned fund balance. The remainder of the fund balance is non-spendable, restricted, committed or assigned. The fund balance in the General Fund increased due to a positive variance of revenues exceeding expenditures by \$380,296. The Town generated a surplus of \$1,109,104 and the School Department generated a deficit of \$728,808 on a GAAP basis. Thus, the combined result was the positive effect to fund balance of \$380,296. The School Bond Capital Fund had a decrease in fund balance due to ongoing expenditures to complete the school projects.

General Fund Budgetary Highlights

Revenues:

Revenues on a budgetary basis were \$3,438,276 over budget due to the following:

General Property Taxes – were over budget by \$458,606. Current year taxes are over budget by \$61,366 and prior year's collections were over budget by \$397,240. Budgets for prior year taxes need to increase to reflect stronger collections.

State Aid – was over budget by \$385,898. School housing aid was conservatively under budgeted by \$250,759. Housing aid is determined after the budget has been set, therefore making it difficult to accurately budget.

Departmental Revenue – there is an overall increase in departmental revenue. This is largely due to an overage of \$176,130 in realty transfer tax stamps and \$19,949 in land recording fees.

Other Income – was over budget by \$2,267,963. This is due to the issuance of refunding bonds in the amount of \$2,085,000 and receipt of premium on refunding debt in the amount of \$65,705.

Expenditures:

Expenditures on a budgetary basis were over budget by a total of \$2,329,172 due to the following:

Town Administration – was over budget by \$464,913. The legal claim overage of \$368,817 and employee contract payout of \$154,934 was offset by several departments coming in under budget.

Fire Department – was over budget by a total of \$143,739. Overtime overages of \$225,526 were offset by the by not filing the fire clerks position and lower salary and holiday pay budgeted.

Police and DPW Departments – both came in under budget.

Debt Service – was over budget by \$2,131,697. Overages were due to a payment to refunding bond escrow agent in the amount of \$2,111,802.

Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended June 30, 2017

Net change in fund balances - total governmental funds \$ (8,310)

Amounts reported for governmental activities in the statement of activities are different from the amounts reported as fund expenditures because:

Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceed depreciation, loss on disposal of equipment and adjustments in the current period.

Capital outlay	1,699,762	
Depreciation expense	(4,041,816)	(2,342,054)

Loss on disposal of capital asset.		(76,078)
------------------------------------	--	----------

Property taxes that are not collected in the current period and do not represent current financial resources are deferred in the fund financial statements, however they are recognized as revenues in the statement of activities.		75,685
---	--	--------

Amortization of premiums in the current period do not represent current financial resources, however they are recognized as expenditures and revenues in the statement of activities.		233,447
---	--	---------

Some expenditures reported in the governmental funds that require the use of current financial resources are not reported as expenditures in the statement of activities.		204,521
---	--	---------

Changes in the Town's Net Pension Assets, Deferred Outflows of Resources related to pension plans or Net Pension Liability and Deferred Inflows of Resources related to pension plans result in an increase or decrease to the pension expense reported in the Statement of Activities.

Also, under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the full accrual basis, expenses and liabilities are recorded regardless of when financial resources are available.

Notes to Financial Statements

TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 1 - REPORTING ENTITY

In accordance with the requirements of Statement No. 14 of the Governmental Accounting Standards Board, *The Financial Reporting Entity*, the accompanying basic financial statements present the Town of East Greenwich, Rhode Island (the primary government). The activities discussed below are included in the Town's reporting entity because of the significance of their operational or financial relationships with the Town.

The Town complies with generally accepted accounting principles (GAAP). Generally accepted accounting principles (GAAP) includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of these notes.

Primary Government

The Town of East Greenwich is a municipal corporation governed by a Town Council/Town Manager form of government with an elected five member Town Council.

The Town of East Greenwich was incorporated in 1677. The Town operates under a Home Rule Charter, adopted in 1972. All legislative powers of the town, except such powers as are reserved by the state law or vested in the financial Town Meeting by the Charter and by-laws enacted by the Town Council, are vested in the Town Council by the Charter, including the ordering of any tax, making appropriations and transacting of any other business pertaining to the financial affairs of the Town.

This report includes all of the funds and account groups of the Town of East Greenwich. The reporting entity for the town consists of (a) the primary government, (b) organizations for which the primary government is financially accountable and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable.

In evaluating the inclusion of how to define the government for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria prescribed by GASB Statement No. 14, as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units". Under GASB Statement No. 14 and Statement No. 39 the financial reporting entity includes both the primary government, which is the Town of East Greenwich and all of its component units. Component units are legally separate entities that meet any one of the following three tests:

Test 1 - the primary government appoints the voting majority of the board of the potential component unit and

* Is able to impose its will on the potential component unit and/or

* Is in a relationship of financial benefit or burden with the potential component unit;

Test 2 - the potential component unit is fiscally dependent upon the primary government; or

Test 3 - the financial statements would be misleading if data from the potential component unit was not included.

The following entities were considered for classification as component units for fiscal year 2017:

* East Greenwich Land Trust (the Trust)

* East Greenwich School Department

TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 1 - REPORTING ENTITY (CONTINUED)

Although the East Greenwich School Department meets certain criteria of the tests listed above, the School Department is not deemed to have separate legal status apart from the Town. As a result, the financial data of the School Department has been included as part of the Town General Fund within the Town's financial statements

Discretely Presented Component Unit Disclosure - The East Greenwich Land Trust (the Trust) has been presented as a component unit of the Town in the government-wide financial statements. The Town Council appoints the Board of Trustees that governs the Trust. The Land Trust was included as a component unit because the primary government has a significant influence over the component unit, a financial benefit or burden exists and the component unit has a fiscal dependency on the primary government. The purpose of the Trust is to promote preservation of the environment and character of the Town, to preserve suitable open spaces for recreation, for the conservation of forestry and wildlife, to promote responsible development of real estate and sound conservational practices, to protect environmentally sensitive or threatened existing and /or future fresh-water well fields, aquifer recharge area, wetlands and to promote public access and views of harbors, ponds, marshes, farmland and forests situated in the Town. Upon termination or dissolution of the Trust, title to all remaining funds, land and land rights will vest with the Town. The Trust is included in the Town's reporting entity because of the significance of the operational and financial relationships with the Town. The Trust does not issue separate financial statements.

Recently Issued Accounting Standards

The Town implemented the following accounting pronouncements for the year ended June 30, 2017:

- GASB Statement No. 74 – Financial Reporting for Postemployment Benefit Plans Other than Pension Plans – effective for the Town's fiscal year ending June 30, 2017
- GASB Statement No. 75 – Accounting for Postemployment Benefit Plans Other than Pension Plans – effective for the Town's fiscal year ending June 30, 2018.
- GASB Statement No. 77 – Tax Abatement Disclosures – effective for the Town's fiscal year ending June 30, 2017.
- GASB Statement No. 78 – Pensions Provided through Certain Multiple-Employer Defined Pension Plans – effective for the Town's fiscal year ending June 30, 2017.

The Town will adopt the following new accounting pronouncements in future years:

- GASB Statement No. 80 – Blending Requirements for Certain Component Units, an Amendment of GASB Statement No. 14 – effective for the Town's fiscal year ending June 30, 2018.
- GASB Statement No. 82 – Pension Issues, an Amendment of GASB Statements No. 67, 68, and 73 – effective for the Town's fiscal year ending June 30, 2018.
- GASB Statement No. 85 – Omnibus 2017 – effective for the Town's fiscal year ending June 30, 2019.

The impact of these pronouncements on the Town's financial statements has not been determined.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds and component units that are fiduciary in nature. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF PRESENTATION

Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to interfund activities, receivables and payables.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Town or if it meets the following criteria:

- (a) Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total (assets, liabilities, and so forth) for all funds of that category or type (that is, total governmental or total enterprise funds), and
- (b) Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

In addition to funds that meet the major fund criteria, any other governmental or enterprise fund that the government's officials believe is particularly important to financial statement users (for example, because of public interest or consistency) may be reported as a major fund. The funds of the financial reporting entity are described below:

GOVERNMENTAL FUND TYPES

These are the funds through which most governmental functions are typically financed. The funds included in this category are as follows:

General Fund – is the primary operating fund of the Town and is always classified as a major fund. It is used to account for all activities except those that are legally or administratively required to be accounted for in other funds.

Special Revenue Funds – are used to account for restricted or committed revenues that comprise a substantial portion of the *inflows* of a fund.

Capital Projects Funds - are used to account for resources restricted for the acquisition or construction of specific capital projects or items (other than those financed by Proprietary or Trust funds). The School Bond 52m Capital Fund is a capital projects fund and is a major fund. This fund is for a 52 million dollar school project. A new Middle School was built and major renovations were done on the middle school and elementary schools. The Town began the project by issuing BANS and refinanced the BANS into bonds in February 2012.

Permanent Funds – are used to account for assets held by the Town pursuant to a trust agreement. The principal portion of this fund must remain intact, but the earnings may be used to achieve the objectives of the fund.

TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

PROPRIETARY FUND TYPES

Proprietary funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. Operating revenues of the Proprietary Funds consist of customer/taxpayer charges for uses and services and certain other miscellaneous revenues. All other revenues of the Proprietary Funds are considered non-operating sources of revenue. The Sewer Fund is the only Proprietary Fund and is used to account for sewer use fees and the expenses associated with providing sewer services to town residents.

FIDUCIARY FUND TYPES

These funds use the accrual basis of accounting to account for assets held by the Town as a trustee or agent for individuals, private organizations, and other units of governments. These funds are not included in government-wide statements.

Agency Funds – are used to account for assets held by the Town in a purely custodial capacity. Since agency funds are custodial in nature (i.e. assets equal liabilities), they do not involve the measurement of results of operations. The Agency Funds are the only Fiduciary Funds and account for funds that are to be used for educational and welfare expenditures and for funds held in escrow for other parties. Agency Funds use the accrual method rather than the modified accrual basis of accounting.

Fiduciary Funds – Fiduciary funds include a Statement of Net Position and a Statement of Changes in Net Position. The Town's fiduciary fund is an OPEB Trust Fund. Fiduciary Funds are used to account for assets held by the Town in a trustee capacity or as an agent for individuals, private organizations or other governments. The Fiduciary Fund is accounted for on an "economic resources" measurement focus and the accrual basis of accounting.

BASIS OF ACCOUNTING
Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities both governmental and business-like activities are presented using the economic resources measurement focus as defined in item (b) below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- (a) All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period. The Town considers property taxes as available if they are collected within 60 days after year end.
- (b) All proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of net income, financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.
- (c) Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

In the government wide financial statements the Statement of Net Position and Statement of Activities (governmental and business-type activities) are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expense, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from exchange and exchange-like transactions should be recognized when the exchange takes place. Revenues, expense, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from non-exchange transactions should be recognized in accordance with the requirements of Section N50.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All proprietary funds, fiduciary funds and agency funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

All Governmental Fund Types are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e. both measurable and available. Available means collectible within the current period or soon enough thereafter, (generally defined as 60 days after the close of the fiscal year) to be used to pay liabilities of the current period.

Licenses and permits, charges for services, fines, forfeits, and miscellaneous revenue are recorded as revenues when received in cash. Those revenues susceptible to accrual are property taxes and investment earnings. Fines and permits are not susceptible to accrual because generally they are not measurable until received in cash. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except expenditures for debt service and other long-term obligations, which are recognized when paid.

Amounts reported as program revenues include charges to customers or applicants for goods, services or privileges provided and operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Cash and Cash Equivalents

For the purpose of the Statement of Cash Flows, the Propriety Fund Types consider all highly liquid investments with a maturity date of three months or less when purchased to be cash equivalents.

Investments

Investments are stated at fair value in accordance with GASB No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

For purposes of the statements of cash flows, all highly liquid investments with a maturity of three months or less when purchased (e.g. short-term commercial paper) are considered to be cash equivalents.

TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting (Continued)

Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Major receivable balances for the governmental activities include property taxes and intergovernmental grants and aid. Business-type activities report service fees as its major receivables.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as property taxes and grants and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Proprietary fund material receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivables are based upon historical trends and the periodic aging of accounts receivable.

Inventories

Inventories of supplies (except gasoline and postage) are considered to be expenditures at the time of purchase. Inventories of gasoline and postage are recorded at cost on a first in first out basis and maintained on a periodic system and are recorded as expenditures when consumed.

Capital Assets

Property, Plant and Equipment

The accounting treatment over property, plant and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements

In the government-wide financial statements, capital assets are accounted for as capital assets. All fixed assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated fixed assets, which are recorded at their estimated fair value at the date of donation. The capitalization threshold is any individual item with a total cost greater than \$10,000.

Depreciation of all exhaustible capital assets is recorded, as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

<u>Description</u>	<u>Years</u>
Buildings, Infrastructure & Improvements	10-100
Motor vehicles	5-10
Machinery and equipment	5-30
Sewer mains	75-100

TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- **Net Investment in capital assets** - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- **Restricted** - Consists of net positions with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- **Unrestricted** - All other net positions that do not meet the definition of "restricted" or "Net investment in capital assets".

Governmental Fund Financial Statements

The Town has adopted the requirements of the Government Accounting Standards Board GASB Statement No. 54 - *Fund Balance Reporting and Governmental Fund Type Definitions*. Acceptance of this statement has changed the Town's presentation of the elements of fund balances, a key indicator of inter-period equity. Listed below are the new fund balance categories and their definitions.

- **Non-spendable** – are balances that are permanently precluded from conversion to cash such as permanent funds and inventories.
- **Restricted** – requires that inflows and outflows of resources and balances be constrained to a specific purpose of enabling legislation, external parties or constitutional provisions.
- **Committed** – are balances with constraints imposed by the government using the highest level of decision-making authority. These constraints can only be removed or changed by the same decision making authority taking the same type of action.
- **Assigned** – are balances intended for a specific purpose by the government's management and are also appropriations of existing fund balances.
- **Unassigned** – are balances available for any purpose. They are not precluded by a management decision, law constitutional provision in the general fund.

**TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Town has set classification policies and procedures for the above noted level of fund balance reporting.

- a) For committed fund balances: the Town Council, via a resolution or vote, is the highest level of decision making authority and a meeting of the Town Council is required to establish, modify or rescind a fund balance commitment.
- b) For assigned fund balance: The Town's Finance Director is authorized to assign amounts to a specific purpose and un-assign amounts to a specific purpose. This authorization was given to that position by the Town Council through resolution.
- c) The Town considers amounts that are committed, assigned or unassigned to have been spent when an expenditure is incurred for the purpose of which any amounts in any of the unassigned fund balance classifications could be used.
- d) The Town considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available and considers committed amounts to have been spent when and expenditure is incurred for purposes for which amounts in any other unrestricted fund balance could be used.

Fund Balance Transactions

The re-appropriation of prior year's unexpended balances for certain accounts in the General Fund is reported as a transfer of fund balance in the current year.

Property Taxes

The Town is permitted by state law to levy property taxes. Taxes are recognized as revenue when they are collected. Taxes are levied each July on (a) 100% of the full and fair value of real and tangible personal property owned within the Town on the previous December 31; and, (b) the value, as determined by the Rhode Island Vehicle Valuation Commission, of vehicles registered within the Town the previous calendar year, prorated for the actual number of days so registered, reduced by the amount exempt under the Motor Vehicle Phase-Out Program.

Taxes levied during July are payable in quarterly installments on September 1, December 1, March 1 and June 1, or on September 1, if paid in one payment. Unpaid property taxes at June 30, 2017, include delinquent installments of the current and prior years. The Town does not record interest earned on delinquent taxes until payment is received.

The allowance for uncollectible accounts is based on that portion of current and delinquent taxes receivable, which is estimated to be doubtful of collection. This provision does not constitute an abandonment of claim or the cessation of collection effort.

The municipality holds an annual tax sale in May or June. This tax sale includes all property with a delinquent balance as of the December 1 quarterly installment for the current year. Subsequent to the tax sale, recorder's deeds are placed on sold properties.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until then.

TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time.

Vacation, Sick Leave, and Other Compensated Absences

Unused vacation leave is paid upon an employee's termination. Sick leave not taken is paid only to police department employees up to 300 days of total accumulated sick leave at 50%, upon retirement. School department employees are paid compensated absences based on various employee agreements. Compensated absences that are expected to be liquidated with expendable available financial resources are reported as an expenditure and a fund liability of the governmental fund that will pay it. In governmental funds compensated absence expenditures are only reported when matured. Amounts not expected to be liquidated with expendable available resources are reported as long-term debt in the government-wide financial statements. Long-term debt and other obligations financed by the proprietary funds are reported as liabilities in the appropriate funds. For Proprietary Fund Types accrued compensated absences are recorded as a liability within those funds using the full accrual basis.

Short-Term Inter-fund Receivable/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or serviced rendered. These receivables and payables are classified as "internal balances" on the balance sheet.

Advances to Other Funds

Noncurrent portions of long-term interfund loan receivables are reported as advances and are offset equally by a fund balance reserve account which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriations.

Uses of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Budgetary Process

In accordance with the East Greenwich Home Rule Charter, the Town has formally established budgetary accounting control for its General Fund. The General Fund is subject to an annual operating budget that is prepared by the administration of the Town Manager and submitted to the Town Council for approval. The annual operating budgets' appropriated amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. The General Fund annual operating budget is prepared on the budgetary basis of accounting which is not in conformity with Generally Accepted Accounting Principles. The budget to actual presentation in required supplementary information is reflected on the budgetary basis.

Appropriations in addition to those contained in the annual operating budgets, except for the purpose of meeting a public emergency, are made upon the recommendation of the Town Manager with the Director of Finance's certification as to General Fund surplus to meet such appropriations and with Town Council's approval. There were no additional supplemental appropriations for the year ended June 30, 2017. Amendments to the operating budgets that do not result in additional appropriations may be made within departments by means of a transfer.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Municipal Employees' Retirement System (MERS) of Rhode Island and additions to/deductions from MERS' fiduciary net position have been determined on the same basis as they are reported by MERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Legal Debt Margin

The Town's legal debt margin as set forth by State Statute is limited to three percent of total assessed value, which approximates \$73,515,232 based on the December 31, 2015 assessment. As of June 30, 2017 the Town's debt is under the debt limit by \$71,430,232.

In addition to the bonding authority granted under §45-12-2 of the RI General Laws, the Town of East Greenwich can authorize bond issues pursuant to a special act of the RI General Assembly. Bond issues authorized by a special act of the General Assembly are normally not subject to any legal debt limit, but are subject to financial constraints such as the Town's ability and willingness to service the bonded debt. See page 153 in the statistical section for computation of the legal debt margin.

NOTE 4 - FUND EQUITY

The fund equity balances have been classified to reflect the limitations and restrictions placed on the respective funds as follows:

The following fund balance categories are recorded on the Balance Sheet of Government Funds in the financial statements at June 30, 2017:

- **Non-spendable** – are balances that are permanently precluded from conversion to cash such as permanent funds, prepaids, deposits and inventories.
- **Restricted** – requires that inflows and outflows of resources and balances be constrained to a specific purpose of enabling legislation, external parties or constitutional provisions.
- **Committed** – are balances with constraints imposed by the government using a properly executed town council resolution highest level of decision-making authority. These constraints can only be removed or changed by the same decision making authority taking the same type of action.
- **Assigned** – are balances intended for a specific purpose by the government's management and are also appropriations of existing fund balances.
- **Unassigned** – are balances available for any purpose. They are not precluded by a management decision, law constitutional provision in the general fund.

Deficits of fund equity at June 30, 2017 were as follows: Community Development \$17,863; Byrne grant \$181; Title II \$65,475. The Town of East Greenwich anticipates funding deficits through future Town appropriations and future reimbursements from either the State or the Federal Government.

TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 5 - CASH AND INVESTMENTS

Deposits: The Town maintains deposits in various financial institutions that are carried at cost except for those amounts which are carried as petty cash. The carrying amount of deposits is separately displayed on the balance sheet as "Cash and cash equivalents".

Investments: Investment of all idle funds is made through national banks or trust companies, providing that the financial conditions and integrity of the institution or institutions are verifiable and can be monitored. The investment of funds must be in direct obligations of the United States Government and "money market instruments" rated "A" or better. Investments in any one institution cannot exceed five (5) percent of that institutions capital and surplus as set forth in the institutions most recent audited financial statements. All investments are made as would be done by prudent men of discretion and intelligence in such matters who are seeking a reasonable income and preservation of their capital.

Interest Rate Risk: The Town limits its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market funds, or similar investment pools.

Concentrations: The Town policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific maturity.

Custodial Credit Risk

Deposits: This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2017, \$714,040 of the Town's balance of \$17,560,758 was uninsured and uncollateralized.

Investments: This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

TOWN OF EAST GREENWICH, RHODE ISLAND

NOTE 5 - CASH AND INVESTMENTS (continued)

Cash and investments of the Town consist of the following at June 30, 2017

Cash and cash equivalents	
Deposits with financial institutions	\$ 17,560,758
Investments	
Fixed Income	548,811
Equities	1,646,433
Mutual Funds	190,891
Total investments	<u>2,386,135</u>
Total cash and investments	<u><u>\$ 19,946,893</u></u>

Cash and investments are classified in the accompanying financial statements as follows:

Statement of net assets	
Cash and cash equivalents	\$ 17,049,394
	<u>\$ 17,049,394</u>
Fiduciary funds	
Cash and cash equivalents	511,364

Equities	1,646,433
Mutual Funds	190,891
	<u>2,897,499</u>
Total cash and investments	<u><u>\$ 19,946,893</u></u>

Interest Rate Risk: This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The town does not have any investments that are subject to interest rate risk for the fiscal year ended June 30, 2017. If applicable, information about the exposure of the Town's debt type investments to this risk is reported using the segment time distribution model.

Credit Risk: Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. The Town did not have any debt type investments that were exposed to credit risk as defined by GASB 40 as of June 30, 2017.

TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 6 - PROPERTY TAXES

The Town is responsible for assessing, collecting, and distributing property taxes in accordance with enabling state legislation. The Town does not use the modified accrual basis (60 day rule) for reporting its revenue from property taxes. Rather, the Town uses the cash method which reports revenue as taxes are paid. This method is not according to Generally Accepted Accounting Principles (GAAP). However, the total effect on the Funds Statement is insignificant. Therefore, there is no modification to the auditor's opinion on these Financial Statements.

All property taxes for fund statement purposes are recognized in compliance with NCGA Interpretation-3 (Revenue Recognition - Property Taxes), which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due and receivable within the current period and collected no longer than 60 days after the close of the current period. The Town uses the allowance method for bad debts. Under this method, the Town has reserved the sum of \$90,933.

Current tax collections for the Town were approximately 99.5% of the total July 2016 tax certification.

NOTE 7 - INFORMATION ABOUT CAPITAL ASSETS

The Town defines capital assets as assets with an individual cost of more than \$10,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost (for certain assets acquired prior to 1960). The following schedule list prior year balances and current year activity for all Governmental Fund fixed asset transactions.

"Total fund balances" of the Towns' governmental funds \$16,996,980 differs from "net position" of governmental activities \$(26,962,877) reported in the statement of net position. This difference primarily results from the long-term economic focus of the statement of net position versus the current financial resources focus of the governmental fund balance sheets. The effect of the differences is illustrated below.

NOTE 8 - DIFFERENCES BETWEEN GOVERNMENTAL FUNDS BALANCE SHEET AND THE STATEMENT OF NET POSITION

- (1) When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the cost of these assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the Town as a whole.

Cost of capital assets	\$ 141,061,269
Accumulated depreciation	(60,654,692)
	<u>\$ 80,406,577</u>

Because the focus of governmental funds is on short term financing, some assets will not be available to pay for current-period expenditures. Those assets (for example receivables) are offset by deferred revenues in the governmental funds and thus are not included in the fund balance. Also some expenditures in the governmental activities do not reflect current period charges.

Adjustment of unearned revenue	\$ 2,914,046
Accrued interest	(296,702)
Bond premiums	(3,028,659)
	<u>\$ (411,315)</u>

Long-term liabilities applicable to the Towns' governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities, both current and long-term are reported in the statement of net position.

Bonds payable	\$ (45,246,501)
Accrued compensated absences	(1,177,420)
Claims, judgments, and settlements	(2,291,980)
Capital leases payable	(16,943)
Net OPEB liability	(39,218,245)
Net pension liability	(46,489,295)
	<u>\$ (134,440,384)</u>

Town pension plans with a net pension asset balance at the end of the year.

Net pension asset - MERS Town	\$ 464,425
Net pension asset - TSB	3,676,575
	<u>\$ 4,141,000</u>

Deferred inflows and outflows of resources are amounts used under GASB 68 and GASB 75 in developing the annual pension and OPEB expense. Deferred inflows and outflows arise with differences between expected and actual experiences; changes of assumptions. The portion of these amounts not included in pension or OPEB expense should be included as deferred in or out.

Deferred inflows of resources - pensions	(5,524,114)
Deferred outflows of resources - pensions	15,976,616
Deferred outflows on refunding debt	27,868
Deferred inflows of resources - OPEB	(4,136,105)

TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 9 - DIFFERENCES BETWEEN GOVERNMENTAL FUND OPERATING STATEMENTS AND THE STATEMENT OF ACTIVITIES (CONTINUED)

- (1) Increases in deferred revenues that provide current financial resources to governmental funds are not reported as revenues in the statement of activities. State funded public service corporation tax revenues that are not accrued for in the governmental funds are reported as revenues in the statement of activities.

Unearned revenue property tax	\$ 75,685
-------------------------------	-----------

Interest expense in the statement of activities differs from the amount reported in the governmental funds for two reasons. Accrued interest was reduced on the calculation for bonds payable and bond issuance costs and premiums are reported as expenditures in governmental funds while in the government-wide financial statements they are capitalized and amortized over the life of the bond.

Accrued interest	\$ 204,521
Amortization bond premium costs	233,447
Total expenditure adjustment	<u>\$ 437,968</u>

- (2) When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net assets decrease by the amount of depreciation expense charged for the year.

Capital outlay	\$ 1,699,762
Depreciation expense	(4,041,816)
Difference	<u>\$ (2,342,054)</u>

When a loss is realized for the disposal of capital assets the loss is not recognized on the governmental funds and is only recorded on the statement of activities.

Loss on disposal of equipment	\$ (76,078)
-------------------------------	-------------

- (3) Repayment of bond principal is reported as an expenditure in the governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. For the town as a whole, however, the principal payments reduce the liabilities in the statement of net position and do not result in an expense in the statement of activities.

Issuance of debt	\$ (2,647,112)
New bond premium	(65,705)
Deferred outflows on refunding debt	41,802
Amortization of deferred loss on refunding debt	(13,934)
Principal payments made on refunding debt	2,070,000
Net capital lease payments/additions	27,736
Principal payments made	4,295,833
Difference	<u>\$ 3,708,620</u>

Certain accrued expenditures that do not use current financial resources are not reported in the fund financial statements. However, in the statement of activities these accrued expenses are recognized and charged to current activities.

Net (increase)/decrease in net OPEB liability	\$ 2,714,277
Net decrease claims, judgments, and settlements	7,567
Net (increase)/decrease in compensated absences	(253,120)
Net (increase)/decrease in net pension liability	(7,458,818)
Net increase/(decrease) in net pension asset	(69,598)
Net increase/(decrease) in deferred outflows	6,747,498
Net (increase)/decrease in deferred inflows	60,399
Net (increase)/decrease in deferred inflows OPEB	(4,136,105)
Change	<u>\$ (2,387,900)</u>

Totals	<u>\$ 139,621,718</u>	<u>\$ 139,621,718</u>

NOTE 11 - CAPITAL LEASES

The Town capital leases consist of office equipment. The future minimum lease payments are as follows:

Year End	Lease Payment
2018	16,943
Future Minmum Rental Payments	16,943
Interest Portion of Payments	847
Obligation Under Capital Leases	<u>\$ 17,790</u>

NOTE 12 - LONG-TERM LIABILITIES

The Town issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds may be issued for both general government and proprietary activities and are direct obligations and pledge the full faith and credit of the Town.

Rhode Island general laws cap the amount of each municipality's general obligation bonds that may be outstanding to 3% of its assessed property values. Exceptions apply to bonds financed from non-tax revenues and special exemptions are granted for other purposes as well. The assessed value of the Town's properties at December 31, 2015 was \$2,450,507,727 limiting the amount of non-excepted general obligation bond authority to \$73,515,232. The outstanding bonded debt applicable to the debt limit as of June 30, 2017 was \$2,085,000 which is \$71,430,232 below the maximum level.

TOWN OF EAST GREENWICH, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 13 – LITIGATION, CLAIMS, JUDGMENTS AND SETTLEMENTS

During the ordinary course of its operations, the Town is a party to various claims, other legal actions and complaints. These various legal actions include disputes in property valuations and torts for which the Town has been named as a defendant. In the opinion of the Town's management and legal counsel, other than the matters stated below they do not anticipate any of them to have a material financial impact or at this time their legal counsel has been unable to assess liability, if any, on the part of the Town.

A certified class action has been filed against the Town related to illegal imposition of impact fees. The fees were imposed by the East Greenwich Fire District, which was a separate legal entity until 2013, when the Town acquired the District through enabling legislation passed by the RI General Assembly. As a result of recent mediation, the Town has agreed to settle this claim for \$1,700,000 due and payable by June 30, 2018. The Town's Government-Wide Financial Statement has made the necessary accrual for this liability and recognized the expense as a restatement of its prior year's Net Position. The Town's General Fund committed fund balance includes this amount in the claims and judgements category.

The Town had refunded \$6,000,000 General Obligation Bonds in September of 2016. Part of the refunding included three (3) \$300,000 mandatory sinking fund payments due October 1 of 2016, 2017, and 2018. Due to an administrative error, no redemption notices were generated for DTC and no payments of the \$300,000 mandatory sinking fund payments due October 1, 2016 and October 1, 2017 were made relating to the payments due on such dates. A notice of partial redemption was transmitted to the Depository Trust Company (DTC) on February 15, 2018. On February 21, 2018, the Town wired funds to US Bank so that mandatory sinking fund payments due October 1, 2016 and October 1, 2017 together with accrued and unpaid interest was made on March 17, 2018.

NOTE 14 - FUND TRANSFERS

NOTE 15 - RETIREMENT PLANS & POST EMPLOYMENT BENEFITS

A. MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

Plan Description - The Municipal Employees' Retirement System (MERS) – an agent multiple-employer defined benefit pension plan - provides certain retirement, disability and death benefits to plan members and beneficiaries. MERS was established under Rhode Island General Law and placed under the management of the Employee's Retirement System of Rhode Island (ERSRI) Board to provide retirement allowances to employees of municipalities, housing authorities, water and sewer districts, and municipal police and fire persons that have elected to participate. Benefit provisions are subject to amendment by the General Assembly.

MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the ERSRI website at www.ersri.org

Benefits provided – General employees, police officers and firefighters employed by electing municipalities participate in MERS. Eligible employees become members at their date of employment. Anyone employed by a municipality at the time the municipality joins MERS may elect not to be covered. Elected officials may opt to be covered by MERS. Employees covered under another plan maintained by the municipality may not become members of MERS. Police officers and/or firefighters may be designated as such by the municipality, in which case the special contribution and benefit provisions described below will apply to them, or they may be designated as general employees with no special benefits. Members designated as police officers and/or firefighters are treated as belonging to a unit separate from the general employees, with separate contribution rates applicable.

Salary: Salary includes the member's base earnings plus any payments under a regular longevity or incentive plan. Salary excludes overtime, unused sick and vacation leave, severance pay, and other extraordinary compensation. Certain amounts that are excluded from taxable wages, such as amounts sheltered under a Section 125 plan or amounts picked up by the employer under IRC Section 414(h), are not excluded from salary.

Service: Employees receive credit for service while a member. In addition, a member may purchase credit for certain periods by making an additional contribution to purchase the additional service. Special rules and limits govern the purchase of additional service and the contribution required.

Final Average Compensation (FAC): Prior to July 1, 2012 and for general employee members eligible to retire as of June 30, 2012, the average was based on the member's highest three consecutive annual salaries. Effective July 1, 2012, the average was based on the member's highest five consecutive annual salaries. Once a member retires or is terminated, the applicable FAC will be the greater of the member's highest three year FAC as of July 1, 2012 or the five year FAC as of the retirement/termination date. Monthly benefits are based on one-twelfth of this amount.

Subsequent to June 30, 2015, litigation challenging the various pension reform measures enacted in previous years by the General Assembly (2009, 2010, and 2011) was settled. The final settlement approved by the Court on July 8, 2015 also included enactment of the pension settlement provisions by the General Assembly. These amended benefit provisions, which have been included in the determination of the total pension liability at the June 30, 2015 measurement date and are reflected in the summary of benefit provisions described below.

NOTE 15 - RETIREMENT PLANS & POST EMPLOYEMENT BENEFITS

A. MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

General employees

Members with less than five years of contributory service as of June 30, 2012 and members hired on or after that date are eligible for retirement on or after their Social Security normal retirement age (SSNRA).

Members who had at least five years of contributory service as of June 30, 2012 will be eligible for retirement at an individually determined age. This age is the result of interpolating between the member's prior Retirement Date, described below, and the retirement age applicable to members hired after June 30, 2012 in (a) above. The interpolation is based on service as of June 30, 2012 divided by projected service at the member's prior Retirement Date. The minimum retirement age is 59.

Members with 10 or more years of contributory service on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If this option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

Effective July 1, 2015, members will be eligible to retire with full benefits at the earlier of their current Rhode Island Retirement Security Act (RIRSA) date described above or upon the attainment of age 65 with 30 years of service, age 64 with 31 years of service, age 63 with 32 years of service, or age 62 with 33 years of service.

A member who is within five years of reaching their retirement eligibility date and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members were eligible for retirement on or after age 58 if they had credit for 10 or more years of service, or at any age if they had credit for at least 30 years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

The annual benefit is equal to 2.00% of the member's monthly FAC for each year of service prior to July 1, 2012 and 1.00% of the member's monthly FAC for each year of service from July 1, 2012 through June 30, 2015. For all service after June 30, 2015, the annual benefit is equal to 1.0% per year unless the member had 20 or more years of service as of June 30, 2012 in which case the benefit accrual is 2.0% per year for service after June 30, 2015. The benefit cannot exceed 75% of the member's FAC. Benefits are paid monthly.

Police and Fire employees

Members are eligible to retire when they are at least 50 years old and have a minimum of 25 years of contributing service or if they have 27 years of contributing service at any age. Members with less than 25 years of contributing service are eligible for retirement on or after their Social Security normal retirement age.

Members who, as of June 30, 2012, had at least 10 years of contributing service, had attained age 45, and had a prior Retirement Date before age 52 may retire at age 52.

Active members on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

A member who is within five years of reaching their retirement eligibility date, as described in this section, and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

NOTE 15 - RETIREMENT PLANS & POST EMPLOYMENT BENEFITS

A. MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

Prior to July 1, 2012, members designated as police officers or firefighters were eligible for retirement at or after age 55 with credit for at least 10 years of service or at any age with credit for 25 or more years of service. Members were also eligible to retire and receive a reduced benefit if they are at least age 50 and have at least 20 years of service. If the municipality elected to adopt the 20-year retirement provisions for police officers and/or firefighters, then such a member was eligible to retire at any age with 20 or more years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

A monthly benefit is paid equal to 2.00% of the member's monthly FAC for each year of service, up to 37.5 years (75% of FAC maximum).

If the optional 20-year retirement provisions were adopted by the municipality prior to July 1, 2012: benefits are based on 2.50% of the member's FAC for each year of service prior to July 1, 2012 and 2.00% of the member's FAC for each year of service after July 1, 2012. The benefit cannot exceed 75% of the member's FAC.

Active members (including future hires), members who retire after July 1, 2015 and after attaining age 57 with 30 years of service will have a benefit equal to the greater of their current benefit described in (a) and (b) above and one calculated based on a 2.25% multiplier for all years of service.

Other benefit provisions

Death and disability benefits are also provided to members. A member is eligible for a disability retirement provided he/she has credit for at least five years of service or if the disability is work-related. Members are not eligible for an ordinary disability benefit if they are eligible for unreduced retirement.

Joint and survivor benefit options are available to retirees. For some employees, a Social Security Option is also available where an annuity is paid at one amount prior to age 62, and at a reduced amount after age 62, designed to provide a level total income when combined with the member's age 62 Social Security benefit. Benefits cease upon the member's death.

Post-retirement benefit increases are paid to members who retire after June 30, 2012. Members will be eligible to receive cost of living increases at the later of the member's third anniversary of retirement and the month following their SSNRA (age 55 for members designated as police officers and/or firefighters). When a municipality elects coverage, it may elect either COLA C (covering only current and future active members and excluding members already retired) or COLA B (covering current retired members as well as current and future active members).

a. The COLA will be suspended for any unit whose funding level is less than 80%; however, an interim COLA may be granted in four-year intervals while the COLA is suspended. The first interim COLA may begin January 1, 2018.

b. Effective July 1, 2015, the COLA is determined based on 50% of the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%, plus 50% of the lesser of 3.0% or last year's CPI-U increase for a total maximum increase of 3.50%. Previously, it was the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%

c. The COLA will be limited to the first \$25,000 of the member's annual pension benefit. For retirees and beneficiaries who retired on or before July 1, 2015, years in which a COLA is payable based on the every fourth year provision described in (i) above will be limited to the first \$30,000. These limits will be indexed annually to increase in the same manner as COLAs, with the known values of \$25,000 for 2013, \$25,000 for 2014, \$25,168 for 2015, \$25,855 for 2016, and \$26,098 for 2017.

Contributions - The amount of employee and employer contributions have been established under Rhode Island General Law Chapter 45-21. General employees with less than 20 years of service as of June 30, 2012 are required to contribute 1% (employer should report 2% if opted to provide a COLA) of their salaries. General employees with more than 20 years of service as of June 30, 2012 are required to contribute 8.25%. Public safety employees are required to contribute 9% (employer should report 10% if opted to provide a COLA) of their salaries. The Town of East Greenwich contributes at a rate of covered employee payroll as determined by an independent actuary on an annual basis. The General Assembly can amend the amount of these contribution requirements. The Town of East Greenwich contributed \$1,820,984 in the year ended June 30, 2017 which averaged out to 14.81% of the annual payroll.

Net Pension Liability (Asset) - The total pension liability was determined by actuarial valuations performed as of June 30, 2015 and rolled forward to June 30, 2016, using the following actuarial assumptions, applied to all periods included in the measurement.

Summary of Actuarial Assumptions Used in the Valuations to determine the Net Pension Liability at the June 30, 2016 measurement date (June 30, 2015 valuation rolled forward to June 30, 2016)

NOTE 15 - RETIREMENT PLANS (CONTINUED)

A. MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND (CONTINUED)

The actuarial assumptions used in the June 30, 2015 valuation rolled forward to June 30, 2016 and the calculation of the total pension liability at June 30, 2016 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 35 sources. The June 30, 2016 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

<u>Type of Investment</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Global Equity:	38.00%	
U.S. Equity		6.98%
International Developed		7.26%
International Emerging Markets		9.57%
Equity Hedge Funds	8.00%	4.10%
Private Equity	7.00%	10.15%
Core Fixed Income	15.00%	2.37%
Absolute Return Hedge Funds	7.00%	4.10%
Infrastructure	3.00%	5.58%
Real Estate	8.00%	5.33%
Other Real Return Assets:	11.00%	
Master Limited Partnerships		4.97%
Credit		4.97%
Inflation Linked Bonds		1.76%
Cash, Overlay and Money Market	3.00%	0.82%
	<u>100.00%</u>	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Discount rate - The discount rate used to measure the total pension liability of the plans was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The Town of East Greenwich has five separate reporting units within its MERS plan. The units are for Town Employees, Town Employees with COLA, Town Fire Non-Cert Employees, Police Employees, and Fire Employees. The following schedules present the changes in the Net Pension Liability (Asset) for the year.

B. EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

Plan description - Certain employees of the East Greenwich School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries. The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at <http://www.ersri.org>.

Benefit provisions - The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service

credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than 5 years of service as of July 1, 2012. Members are vested after 5 years of service.

The plan provides for survivor's benefits for service connected death and certain lump sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans covering state employees and teachers reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at five-year intervals.

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Contributions - The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2017, East Greenwich teachers were required to contribute 3.75% of their annual covered salary, except for teachers with twenty or more years of service as of June 30, 2012 must contribute 11% of their annual covered salary. The state and the East Greenwich School Department are required to contribute at an actuarially determined rate, 40% of which is to be paid by the state and the remaining 60% is to be paid by East Greenwich School Department; the rates were 9.41% and 13.73% of annual covered payroll for the fiscal year ended June 30, 2017 for the State and East Greenwich School Department, respectively. The East Greenwich School Department contributed \$2,297,196, \$2,314,652 and \$2,091,559 for the fiscal years ended June 30, 2017, 2016 and 2015, respectively, equal to 100% of the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2017, the East Greenwich School Department reported a liability of \$30,861,308 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the state. The amount recognized by the East Greenwich School Department as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the East Greenwich School Department are as follows:

East Greenwich School Dept's proportionate share of the net pension liability	\$ 30,861,308
State's proportionate share of the net pension liability associated with the East Greenwich School Dept.	<u>21,135,464</u>
Total net pension liability	<u><u>\$ 51,996,772</u></u>

The net pension liability was measured as of June 30, 2016, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015 rolled forward to June 30, 2016. The East Greenwich School Department's proportion of the net pension liability was based on a projection of the Department long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2016 the East Greenwich School District's proportion was 1.003437259%

For the year ended June 30, 2017 the East Greenwich School Department recognized gross pension expense of \$4,567,075 and revenue of \$1,769,175 for support provided by the State. At June 30, 2017 the East Greenwich School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred outflows of resources:

Net difference between projected and actual investment earnings	\$ 3,492,262
--	--------------

Changes in proportion and differences between employer contributions and proportionate share of contributions	1,594,731
---	-----------

Contributions made subsequent to the measurement date	2,297,196

Total	<u><u>\$ 7,384,189</u></u>

Deferred inflows of resources:

Differences between expected and actual experience	\$ 608,911

\$2,297,196 reported as deferred outflows of resources related to pensions resulting from the East Greenwich School Department contributions in fiscal year 2017 subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Actuarial Assumptions - the total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	3.50% to 13.50%
Investment rate of return	7.50%

Mortality – male and female teachers: 97% and 92%, respectively of rates in a GRS table based on male and female teacher experience, projected with Scale AA from 2000.

The actuarial assumptions used in the June 30, 2015 valuation rolled forward to June 30, 2016 and the calculation of the total pension liability at June 30, 2016 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 35 sources. The June 30, 2016 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Discount rate - the discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

C. TEACHERS SURVIVOR BENEFITS

General Information about the Pension Plan

Plan description - Certain employees of the East Greenwich School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Teachers' Survivors Benefit plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in Social Security. The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at <http://www.ersri.org>.

Eligibility and plan benefits - the plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in the plan. Specific eligibility criteria and the amount of the benefit is subject to the provisions of Chapter 16-16 of the Rhode Island General Laws which are subject to amendment by the General Assembly. Spouse, parents, family and children's benefits are payable following the death of a member. A spouse shall be entitled to benefits upon attaining the age of sixty (60) years. Children's benefits are payable to the child, including a stepchild or adopted child of a deceased member if the child is unmarried and under the age of eighteen (18) years or twenty-three (23) years and a full time student, and was dependent upon the member at the time of the member's death. Family benefits are provided if at the time of the member's death the surviving spouse has in his or her care a child of the deceased member entitled to child benefits. Parents benefits are payable to the parent or parents of a deceased member if the member did not leave a widow, widower, or child who could ever qualify for monthly benefits on the member's wages and the parent has reached the age of 60 years, has not remarried, and received support from the member.

In January, a yearly cost-of-living adjustment for spouse's benefits is paid and based on the annual social security adjustment.

Survivors are eligible for benefits if the member has made contributions for at least six months prior to death or retirement.

The TSB plan provides benefits based on the highest salary at the time of retirement of the teacher. Benefits are payable in accordance with the following table:

<u>Highest Annual Salary</u>	<u>Basic Monthly Spouse's Benefit</u>
\$17,000 or less	\$ 750
\$17,001 to \$25,000	\$ 875
\$25,001 to \$33,000	\$ 1,000

Contributions - The contribution requirements of active employees and the participating school districts were established under Chapter 16-16 of the Rhode Island General Laws, which may be amended by the General Assembly. The cost of the benefits provided by the plan are two percent (2%) of the member's annual salary up to but not exceeding an annual salary of \$9,600; one-half (1/2) of the cost is contributed by the member by deductions from his or her salary, and the other half (1/2) is contributed and paid by the respective school district by which the member is employed. These contributions are in addition to the contributions required for regular pension benefits. The East Greenwich School Department contributed \$23,136, \$22,545 and \$23,715 for the fiscal years ended June 30, 2017, 2016 and 2015, respectively, equal to 100% of the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2017 the East Greenwich School Department reported an asset of \$3,676,575 for its proportionate share of the net pension asset related to its participation in TSB. The net pension asset was measured as of June 30, 2016, the measurement date, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2016. The Department's proportion of the net pension asset was based on its share of contributions to the TSB for fiscal year 2016 relative to the total contributions of all participating employers for that fiscal year. At June 30, 2016 the Department's proportion was 3.69238314%.

For the year ended June 30, 2017 the East Greenwich School Department recognized pension expense of \$66,453 – an increase in the net pension asset. At June 30, 2017 the East Greenwich School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

D. DEFINED CONTRIBUTION PLAN

Plan Description

Certain employees participating in the defined benefit plan, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Employees contribute 5% of their annual covered salary and employers contribute 1% of annual covered salary. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

The East Greenwich School Department recognized pension expense of \$492,824 for the fiscal year ended June 30, 2017.

NOTE 16 – OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN

OPEB Trust (the Trust)

Plan Description

Plan administration: The East Greenwich OPEB Trust Fund administers the Town's Other Post-Employment Benefits – a single employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for all permanent full-time general and public safety employees of the Town. Benefit provisions are established through negotiations between the Town and the various unions representing the employees. The plan is considered to be part of the Town's financial reporting entity and is included in the Town's financial report as the Other Postemployment Benefits Trust Fund. The plan does not issue a standalone financial report.

The Trust Fund investments are managed by Vanguard Institutional Advisory Services (VIAS) and services are administered by Public Agency Retirement Services. All costs for management and administration are paid by the assets in the Trust Fund.

NOTE 16 – OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

Benefits Provided

The Trust provides medical and life insurance benefits to eligible retirees and their spouses.

Eligibility

General Employees

Members who have retired under the Municipal Employee Retirement System, shall be eligible to receive medical benefits for self and spouse. Eligibility for retirement is the earlier of completion of 30 years of service regardless of age, or age 58 with 10 years of service.

Police and Fire

Members who have retired under the Municipal Employee Retirement System for police and fire shall be eligible to receive medical benefits for self and spouse. Minimum eligibility for retirement is completion of 20 years of service regardless of age, or age 55 with 10 years of service. At the time retiree becomes eligible for Medicare they will become covered under the Group Plan 65.

Teachers and Administrators

Members of the East Greenwich School Department are eligible for postretirement health and life insurance coverage after attaining 20 years of service with the School Department. Certain administrative members require only five years of service with the School Department to become eligible. Current paraprofessionals and custodians are excluded from the program. Eligible retirees receive full medical and dental insurance coverage for two years following retirement. The eligible retiree may elect individual or family coverage. The retiree contribution rate is 18% for the rate charged to active members for individual or family coverage (20% for administrative members). Eligible retirees are covered under their life insurance policy for an additional two years following retirement.

Employees Covered by Benefit Terms

At June 30, 2017, the following employees were covered by the benefit terms:

	Participants
Active employees	390
Retirees and beneficiaries	87
Total	<u>477</u>

Contributions

Town, DPW, NEARI and Other divisions

Employees who retire prior to age 65, the retiree is partially covered under the Blue Cross Blue Shield Plan (single coverage only) with the Town contributing 3.3% of the premium per year of service at retirement. Retirees contribute the remaining amount of the required premium which is not funded by the Town.

Police and Fire

Upon retirement, Police Officers and Fire Fighters receive fully covered medical coverage (single or family) under Blue Cross Blue Shield (or equivalent) until the retiree becomes Medicare eligible. At that time the retiree becomes covered under the Group Plan 65 (single or single +1 coverage).

School Employees

The School Department pays the balance for retiree health and dental insurance for two years above the 18% paid by the retiree.

Investments

Investment policy: The Trust's policy in regard to the allocation of invested assets is established and may be amended by the VIAS discretionary investment management agreement approved and signed by the Town's plan administrator and any other investment policy established by the Town. It is the policy of the Town to pursue and investment strategy that reduced risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The Town's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short term time span. The following was the Board's adopted asset allocation policy as of June 30, 2017:

Rate of Return: For the year ended June 30, 2017, the annual money-weighted rate of return on investments, net of investment expense was 13.17%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net OPEB Liability of the Town

The components of the net OPEB liability of the Town at June 30, 2017, were as follows:

Total OPEB liability	\$ 41,604,380
Plan fiduciary net position	(2,386,135)
Town's net OPEB liability	<u>\$ 39,218,245</u>
Plan fiduciary net position as a percentage of the total OPEB liability	5.74%

Actuarial assumptions: The total OPEB liability was determined by an actuarial valuation as of June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Summary of Actuarial Assumptions Used in the Valuations to determine the Net OPEB Liability at the June 30, 2017 measurement date (June 30, 2016 valuation rolled forward to June 30, 2017)

NOTE 16 – OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Domestic Equity	N/A	N/A
International Equity	N/A	N/A
Domestic Bond	N/A	N/A
International Bond	N/A	N/A
Alternatives	N/A	N/A
Vanguard Growth Strategy	100%	100.00%
	<u>100%</u>	<u>100%</u>

Discount Rate

The discount rate used to measure the total OPEB liability was 2.93% of the Town and 2.92% for the School. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plans fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

NOTE 17 - JOINTLY GOVERNED ORGANIZATION

The Town of East Greenwich, in conjunction with seven other member communities, participates in a joint venture entitled the Community Development Consortium (Consortium) formed for the management of the Small Cities Community Development Programs (CDBG). The Consortium develops annual applications for the individual members, manages the awarded grants and reports the expenditures to the State. Each member community's grant application includes an administrative subsidy set aside to fund the Consortium. No member community has an obligation, entitlement, or residual interest in the unexpended administrative subsidy or liability for programs carried out for the other members. The Town of East Greenwich has been designated as the host community where the Consortium offices are situated.

NOTE 18 - RELATED PARTIES

The Town reviews its records on an annual basis to determine if any related party transactions exist that would represent a conflict of interest with parties related to its officers and department heads. No such transactions were noted in the fiscal year ended June 30, 2017.

NOTE 19 - RISK MANAGEMENT

Self-insurance:

The School Department participates in a multi-employer cost reimbursement healthcare self-insurance risk pool managed by West Bay Community Health (WBCH). The School Department pays WBCH monthly premiums based upon "working rates" that are periodically adjusted to reflect changes in actual costs. Funds on deposit with WBCH are made available to pay claims, claim reserves and administrative costs. As of June 30, 2017, the reported premiums exceeded expenditures on deposit by \$373,804. Incurred but not reported (IBNR) claims, of \$204,789 resulted in a \$1,789,744 balance in the net adjusted reserve.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for IBNR claims. The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, including retroactive assessments for hospital costs and other settlements occurring after the end of the fiscal year and not determinable at the end of the fiscal year. An excess coverage insurance policy covers individual claims exceeding \$125,000.

Estimated IBNR (two month estimate)	(204,789)	(207,666)
Net adjusted reserve	<u>\$ 1,789,744</u>	<u>\$ 1,773,043</u>

The Town is a member of a Health Pool Trust. The relationship between members and the Trust is not a joint venture, but rather is a public entity risk pool with the members being participants in the pool.

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; injuries to employees; and natural disasters for which the Town carries commercial insurance. Settled claims resulting from these risks have not exceeded the Town's coverage in any of the past three fiscal years and there have been no significant reductions in insurance coverage from the prior year.

NOTE 20 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Federally Assisted Programs - Compliance Audits

The Town participates in a number of federally assisted programs. The audits of these programs through the year ended June 30, 2017 were audited in connection with the accompanying financial statements under the Single Audit Concept and the auditor's reports thereon are presented in the Single Audit Report. Management believes that the amounts, if any, of expenditures, which may be disallowed, will not be material to the financial position of the Town.

NOTE 21 – LANDFILL CLOSURE COSTS

GASBS 49 — *Accounting and Financial Reporting for Pollution Remediation Obligations*, addresses accounting and financial reporting standards for pollution (including contamination) remediation obligations, which are obligations to address the current or potential detrimental effects of *existing* pollution by participating in pollution remediation activities such as site assessments and cleanups. The prior outlays have been capitalized as outlays to prepare for use property acquired with suspected pollution that was expected to be remediated. For the fiscal year ended June 30, 2017, there were no landfill expenditures. The substantial completion of the feasibility study in 2007 is a measurement benchmark requiring the Town to accrue all components of the pollution remediation liability. As of June 30, 2017, the cleanup project was substantially complete.

NOTE 22 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through April 3, 2018 the date the financial statements were available to be issued. As a result of this review no material subsequent events were noted.

NOTE 23 – NET POSITION AND FUND BALANCE RESTATEMENT

The following restatements were recorded to the beginning of net position of the governmental activities as a result of implementation of GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. One other adjustment affected the non-major governmental funds.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

INDEPENDENT AUDITOR'S REPORT

The Honorable President
and Members of the Town Council
Town of East Greenwich, Rhode Island

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of East Greenwich, Rhode Island as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Town of East Greenwich's basic financial statements, and have issued our report thereon dated April 3, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of East Greenwich's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of East Greenwich's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of East Greenwich's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of East Greenwich's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

INDEPENDENT AUDITOR'S REPORT

The Honorable President
and Members of the Town Council
Town of East Greenwich, Rhode Island

Report on Compliance for the Major Federal Program

We have audited the Town of East Greenwich's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Town of East Greenwich, Rhode Island's major federal programs for the year ended June 30, 2017. The Town of East Greenwich's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Town of East Greenwich, Rhode Island's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town of East Greenwich, Rhode Island's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Town of East Greenwich, Rhode Island's compliance.

Opinion on Each Major Federal Program

In our opinion, the Town of East Greenwich, Rhode Island, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the Town of East Greenwich, Rhode Island, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Town of East Greenwich, Rhode Island's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of East Greenwich, Rhode Island's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

TOWN OF EAST GREENWICH, RHODE ISLAND
Notes to Schedule of Expenditures of Federal Awards
June 30, 2017

NOTE 1 - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal grant activity of the Town of East Greenwich, Rhode Island under programs of the federal government for the year ended June 30, 2017. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of the Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Town of East Greenwich, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the Town of East Greenwich, Rhode Island.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of the Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3 - Indirect Cost Rates

The Town of East Greenwich has elected to use the 10 percent de-minimis indirect cost rate as allowed under the Uniform Guidance when applicable.

NOTE 4 - Non-Cash Assistance

U.S.D.A. Contributions: The United States Department of Agriculture makes available commodities for donations to schools. The amount of \$54,903 represents the market value of such commodities used during the period.
